ABOUT ME

Entry-level **Cybersecurity and Cloud Security enthusiast** with strong hands-on experience in **Web Application Security, AWS Cloud Security, and Security Automation**. Completed **50+ 10 labs from PortSwigger**, solved real-world challenges on **Hack The Box & picoCTF**, and **discovered a live SQL Injection vulnerability** in a production website through responsible disclosure. Recently gained practical exposure to **AWS security services, monitoring, IAM, WAF, logging, and threat detection**, along with **AI Agent development**. Passionate about learning, automation, and building secure systems.

EDUCATION

2021 - 2024

Sacred Heart College
(Autonomous), Tirupattur

B.Sc. Computer Science

CGPA: 6.56 / 10

EXPERIENCE

CLOUD SECURITY & AWS HANDS-ON EXPERIENCE

- Gained foundational understanding of **AWS Identity and Access Management (IAM)**, including users, roles, policies, and permissions.
- Implemented **encryption and decryption using AWS Key Management Service (KMS)** to understand data protection mechanisms.
- Configured **AWS CloudTrail and CloudWatch** to monitor access activities and generate access control alerts.
- Learned the fundamentals of **Amazon GuardDuty** for detecting suspicious activities and potential security threats in AWS environments.

AI & AUTOMATION EXPERIENCE

Google AI Agents Program (5 Days)

- Completed a short-term AI Agents training program focused on understanding agent-based systems.
- **Built a simple AI agent** to learn agent workflows, task execution, and basic automation logic.
- Gained practical exposure to how AI agents can assist in automating repetitive tasks.
- Developed foundational understanding of AI-driven workflows relevant to security and automation use cases.

WEB SECURITY EXPERIENCE

PortSwigger Web Security Academy

- Completed **50+ labs** on server-side vulnerabilities
- Hands-on with **SQL Injection, XSS, CSRF, SSRF, IDOR, Authentication & Access Control flaws**
- Used **Burp Suite** for manual testing, interception, and automation
- Developed strong understanding of real-world web exploitation and mitigation

Hack The Box & picoCTF

- Practiced Linux, networking, SQLi, Metasploit, enumeration, and privilege escalation
- Solved real-world **CTF-style web exploitation challenges**

VULNERABILITY DISCOVERY

SQL Injection Vulnerability – College Website

- Identified SQL Injection in login functionality using **Burp Suite & manual payloads**
- Successfully validated impact and performed **responsible disclosure**

PROJECTS

AWS IAM Access Management Project

- Created multiple **IAM users** and assigned **roles and policies** based on access requirements.
- Implemented **role-based access control (RBAC)** using managed and custom IAM policies.
- Configured **least-privilege permissions** to control access to AWS resources.
- Gained hands-on experience with **IAM users, roles, policies, and permissions evaluation.**

Portfolio Website

- Built using HTML, CSS, and JavaScript
- Showcases cybersecurity projects, certifications, and learning journey

SKILLS

- **Security Tools:** Burp Suite, Wireshark, Nmap, Metasploit, Kali Linux
- **Cloud & Security:** AWS IAM, WAF, GuardDuty, Inspector, Macie, CloudTrail, CloudWatch, VPC, KMS
- **Concepts:** Web Application Security, OWASP Top 10, Cloud Security, IAM, Network Security
- **Languages:** Python (Scripting), MySQL, C
- **Soft Skills:** Analytical Thinking, Curiosity, Responsible Disclosure

CERTIFICATIONS

- Cybersecurity Analyst Job Simulation – Forage
- Introduction to Cybersecurity – Cisco
- Networking Basics – Cisco
- Professional Ethical Hacking – Alison
- Cryptography – Simplilearn
- Python Using AI – AI for Techies

INTERESTS

- Reading security blogs (HackerOne, PortSwigger)
- Capture The Flag (CTF) Challenges
- Python scripting for security automation
- Chess (strategic thinking)

LANGUAGES

- Tamil – Native
- English – Fluent

DECLARATION

I hereby declare that the information furnished above is true to the best of my knowledge.
